E · Editorial Wordmark

F · App Icon Set

Luxury, type-only. Marketing & signage.

Indigo, gold, and outline — for stores & home screen.

All six share the same DNA you already use in the app — **Playfair Display** wordmark, deep-indigo + warm-gold palette, and the **TX** monogram with a subtle needle-eye detail on the X. Tell me which direction you like (A is my pick for the primary app logo) and I'll refine it, export crisp SVG/PNG assets, and drop the app-icon version into your Flutter **assets/**.
